Student

EDUCATION

Bridge Year Computer Science

UHasselt - 2025-2026

Applied Computer Science

UC Leuven-Limburg - 2022-2025

Cum Laude: 72%

WORK EXPERIENCE

- **Intern @ Deloitte** - February '25 - May '25
 - Developed a chatbot for the Trademark Clearinghouse. Fine-tuned open-source LLMs (Mistral, Gemma-2, Llama-3) using the Unsloth library to enable efficient training with custom data.
- **Student job @ Phished** - October '24 - May '25
 - Wrote phishing simulations to educate companies and spread awareness, as well as train their employees on how to recognize phishing
- **Student job @ Vliruos** - July '24 & August '25
 - Wrote multiple Python scripts to streamline administrative tasks. Also built a prototype for their intranet.

PROJECTS

- **Dating app**
 - A localized version of Tinder to be used at parties. Developed for a party organized by 3 sororities in Antwerp.
- **My personal website (davybellens.com)**
 - A website where I explain who I am and what I do. I also added a page where people can find out some of my qualities.

About Me

I am a very motivated student, always eager to learn new things. I'm very passionate about programming, always looking for the most efficient yet elegant solution to a problem.
